

NQA Audits Universal Switching Corporation and Approves Transition to New ISO 9001:2015 Certification

Tweet

FOR IMMEDIATE RELEASE

BURBANK, CA, USA - July 24, 2018 - Universal Switching Corporation (uswi.com), a global manufacturer of signal switching and distribution products, announced that it was audited by ANAB accredited NQA, USA, and is approved for transition from the ISO9001:2008 standard, to the latest ISO9001:2015 certification. The extensive audit by NQA involved all aspects of Universal Switching's newly updated QMS (Quality Management System). The external audit, performed on-site by one of NQA's most experienced auditors, confirmed the full implementation of the new risk-based standard across the Company's processes. The management team at USC commented that "this certification clarifies and confirms that our products, processes and services are of the utmost quality and will continue to exceed our customers' expectations of performance, delivery, and support."

Mr. Grodin, Quality Manager at Universal Switching Corporation, indicated that the company originally achieved ISO 9001 certification nearly 11 years ago and it continues to improve every aspect of the company. Of all QMS regimes, the ISO 9000 family of standards is probably the most widely implemented across the globe. Universal Switching Corporation's management team fully supports the ISO process and its function within the company. Mr. Grodin mentioned that "the tremendous support, teamwork and dedication shown by all "Team USC" employees to our Quality Management System has resulted in this transition to this new standard. We feel our QMS is key for us as a Company to maintain our high quality level, increase competitiveness and to further push our product solutions in the global marketplace."
